**Smilie**

Jakarta, Indonesia

**Senior Software Engineer**

Sept 2025 - Present

- Transformed legacy WordPress + Airtable setup into a unified Next.js + Prisma CRM ([crm.smilie.io](http://crm.smilie.io)), streamlining operations and cutting campaign setup time from hours to minutes.
- Delivered end-to-end ordering flow (cart, checkout, Stripe payments, order tracking, and email confirmations) replacing the old manual process.
- Built **AI-powered** product catalog generator that **scrapes** corporate gift data and **auto-writes SEO data** via **GPT API**, **reducing manual prep time by ~95%**.

**Tablelink**

Jakarta, Indonesia

**Senior Fullstack Developer**

Feb 2025 - Sept 2025

- **Built QR-based ordering system** where scanning a barcode loads a dynamic menu for real-time requests.
- **Developed real-time CRUD tables with global socket system**, delivering live updates across users and resolving concurrency conflicts; cut integration time by ~99% when extending features.
- **Drove adoption of SHADCN design system with Storybook**, establishing it as the standard across all features and cutting UI inconsistency tickets by ~90%.
- **Established code review culture** (previously absent), halving MR turnaround time and raising maintainability across the codebase.
- **Addressed GitLab licensing bottleneck** by designing and executing a migration plan; **saved the company ~IDR 72M** annually across 12 developers.

**Farmio**

Remote, Singapore

**Software Engineer**

Nov 2023 – Nov 2024

- **Built Agent Portal with secure authentication** (Next.js, Express.js) for early-stage rollout.
- **Refactored checkout pricing logic to backend**, ensuring 100% price integrity across platforms.
- **Improved Redux + TypeScript structure**, cutting dev confusion and ramp-up time by ~50%.
- **Unified 10+ duplicated pages into shared components**, eliminating inconsistency-related tickets by ~95%.
- **Standardized i18n key naming across 3 languages**, reducing duplication and speeding up translation implementation by ~40%.
- **Integrated ChatGPT with WhatsApp**, converting chat into structured orders and increasing order-processing efficiency by ~80%.
